

## GAME INTRODUCTION

JULIA

Hello, I'm Julia Sullivan, the head veterinarian here at the zoo. We've been short staffed, so we're all very excited to have you on board as the new vet. Come on in, let me introduce you to the vet techs here. They're responsible for assisting you with the medical treatment of the animals.

NIKKI

Yes, so if you need anything at all, you can just call on me, or us, or well, we're all very helpful here. Oh, and hi. I'm Nikki.

JULIA

Nikki here will be by your side when you're treating an animal at the hospital. When you need to be out at an enclosure--

MIKE

That's me. Name's Mike.

DAWN

And me. I'm Dawn. And as much as I'd like to say I'm chief cook and bottle washer at the zoo, we can't forget about the animals' keepers.

MIKE

Oh yeah. They totally know what's happenin' with their animals. They're the ones who usually bring problems to our attention.

JULIA

You'll have plenty of time to get to know everyone later on. For now, you might want to head over to your office. I'm sure you're anxious to get started. Be sure to check the map on the wall to see which animals need care. I'll check back with you after each case to review what you've done. Good luck.
